

# DOOM™

NEW DICE WRAPS

## Here's what you need:

- Sticker paper (8.5" x 11" / 216mm x 279mm)
- Hobby knife
- Cutting board
- Your old DOOM dice (or other 15mm or larger dice)
- A color printer

- Print the PDF at full scale, do not "Fit to Page."
- Using your hobby knife and cutting board, carefully cut around the edge of the print.
- Clean the surface of the dice to get rid of excess oils.
- Place the middle of the cross shape on a face of the die, and peel away the sticker backing.

Alternatively, you can cut apart all six squares and individually affix the stickers.
