

EDGE OF THE EMPIRE BETA UPDATE

This document serves to keep the **EDGE OF THE EMPIRE** Beta testers up-to-date on all of the latest changes to the design of the **EDGE OF THE EMPIRE** Core Rulebook. The most recent update to this document was on September 4, 2012. The newest changes to this document are always marked in **red**.

The changes are listed by chapter and by page. Some changes may encompass more than a single page, in which case that is described in the change entry. Each change is listed separately.

Thanks to everyone for your hard work and diligence on this project.

CHAPTER I: PLAYING THE GAME

New Sidebar (page 18): Add the following sidebar to this page, "**Upgrading and downgrading ability and difficulty** Certain rules may call for a player to upgrade or downgrade the ability or difficulty of a dice pool. For example, the Dodge talent allows characters to upgrade the difficulty of a combat check targeting them by a certain value. Upgrading or downgrading the ability of a pool refers to upgrading Ability dice into Proficiency dice or downgrading Proficiency dice into Ability dice. Likewise, upgrading or downgrading the difficulty of a pool refers to upgrading Difficulty dice into Challenge dice or downgrading Challenge dice into Difficulty dice."

CHAPTER II: CREATING A CHARACTER

Assembling the Group's Obligation (page 31): Add the following sentence to the end of paragraph one: "When listing Obligation, the GM should always start with the largest Obligation, and list them in order from largest to smallest. If multiple characters have the same Obligation value, the GM can list these characters in whichever order seems most appropriate."

Bothans, Species Abilities (page 34): Add the following: "**Special Ability:** Bothans start with one rank in the Convincing Demeanor talent."

Droids, Species Abilities (page 35): Add the following: "**Special Ability:** Droids begin the game with one rank in any one skill of their choice. They still may not train any skill above rank 2 during character creation."

Gand, Species Abilities (page 36): Add the following: "**Special Ability:** There are many sub-species of Gands. One notable difference between the two main sub-species being that

one sub-species has lungs, and one does not. Those that have lungs breathe the ammonia gas-mixture native to their homeworld's atmosphere. Those that do not do not respire and gain all necessary metabolic substances through consumption of food.

When playing a Gand, each player chooses whether he wishes his character to have lungs or not. If he selects to be playing a lungless Gand, his character is immune to suffocation (but not the wounds suffered from being exposed to vacuum). If he chooses to play a Gand with lungs, he starts the game with an ammonia respirator, and treats oxygen environments as dangerous atmospheres with Rating 8. However, he gains +10 starting XP."

Humans, Species Abilities (page 36): Remove the special ability that gives humans access to an additional specialization during character creation and replace it with the following: "**Special Ability:** Humans and near-humans start the game with access to one additional rank in each of two different non-career skills of their choice. They may not train this skill above Rank 2 during character creation."

Rodians, Species Abilities (page 37): Add the following: "**Special Ability:** Rodians start with one rank in the Expert Tracker talent."

Twileks, Species Abilities (page 38): Increase the starting wound threshold to 11 + Brawn.

Twi'leks, Species Abilities (page 38): Add the following: "**Special Ability:** When making skill checks, Twi'leks may remove ■ imposed due to arid or hot environmental conditions."

New Sidebar (page 64): Add the following sidebar to this page: "**Need more experience?** Remember, a player can always increase his character's starting experience by taking on additional Obligation as described under Starting Obligation on page 30."

Acquiring Talents (page 65): Add the following paragraphs to the end of the section: "When selecting talents on a specialization tree, remember that each selection on the tree may only be purchased once. In the case of ranked talents (talents that may be purchased multiple times, and have effects that stack the more times they are purchased), the only way to purchase them multiple times is if there are multiple selections of the same talent on the available specialization trees."

"In some cases a character may have already acquired a talents in one specialization, but encounters it again in another specialization. If it is a ranked talent, he must purchase it again (gaining another rank in the talent). If it is not a ranked talent, he counts as already having purchased it, and may proceed through the second specialization tree."

Acquiring New Specializations (page 65): In the third paragraph, change the experience cost for purchasing an additional specialization within a character's career to 10 experience, and an additional specialization outside a character's career to 20 experience.

Acquiring New Specializations (page 65): At the end of the fourth paragraph, add the following sentence: "When discarding a specialization, the character keeps any talent marked as "permanent" in the specialization tree that he has purchased. He loses any talent not marked as "permanent" that he has purchased."

Wound Threshold (page 65): Add the following to this sentence "A character's starting wound threshold is determined based on his species and his Brawn rating after he has had the opportunity to increase it with his starting experience points."

Strain Threshold (page 65): Add the following to this sentence "A character's starting strain threshold is determined based on his species and his Willpower rating after he has had the opportunity to increase it with his starting experience points."

Step 9: Finishing Touches (page 67): The name of this section should be "**Step 9: Starting Gear and Finishing Touches.**" Add the following paragraphs to this section: "**Starting Gear** Player Characters in **Edge of the Empire** receive a budget of credits to spend on starting gear before gameplay begins. This budget is 500 credits, although it can be increased by undertaking additional Obligation (see page 30). Before their characters begin the game, players may spend these credits to purchase items from **Chapter V: Gear** for their character. They may not purchase Restricted (R) items unless specifically given dispensation by their GM."

"Characters keep any unspent credits when they start the game. In addition, once the player has finished spending his starting credits, he rolls 1d100. His character gains this

many additional credits as "pocket money" at the beginning of the game. This additional money may not be spent during character creation.

"Characters do not start the game with any items save what they purchase with their starting credits or any miscellaneous sundries they feel are appropriate for their character (see page 119)."

New Sidebar (page 67): Add the following sidebar to this page: "**Short on Cash?** Remember, a player can always increase his character's starting credits by taking on additional Obligation as described under Starting Obligation on page 30."

CHAPTER III: SKILLS

Brawl (page 83): Change the sentence "Unless the opponent is incapable of resisting, Brawl is an opposed check" to "The difficulty of Brawl checks is Average ◆◆ (the difficulty of all melee attacks) unless the opponent is incapable of resisting (in which case it might be easier at the GM's discretion)."

Gunnery (page 84): Change the sentence "Gunnery is an opposed check, unless the target is completely immobile" to "Gunnery check difficulties are determined by the distance to the target or relative silhouettes, depending on the weapon fired."

Melee (page 84): Change the sentence "Unless the opponent is incapable of resisting, Melee is an opposed check" to "The difficulty of Melee checks is Average ◆◆ (the difficulty of all melee attacks) unless the opponent is incapable of resisting (in which case it might be easier at the GM's discretion)."

Ranged-Heavy (page 84): Change the sentence "Ranged (Heavy) is resolved as an opposed check, unless the target is completely immobile" to "Ranged - Heavy check difficulties are determined by the distance to the target."

Ranged-Light (page 84): Change the sentence "Ranged (Light) is resolved as an opposed check, unless the target is completely immobile" to "Ranged - Light check difficulties are determined by the distance to the target."

Table 3-2: Medical Check Difficulty (page 77): Column one, row two of the table should read "Current wounds equal more than half of wound threshold."

CHAPTER V: EQUIPMENT

Critical Rating (Crit) (page 108): In the first paragraph, add the following to this sentence: "A critical injury can only be triggered on a successful hit that deals damage."

Brawling Weapons (page 112): Add the following sentence to the first paragraph "When using a brawling weapon, users add their Brawn characteristic to the damage dealt, unless the weapon description indicates otherwise."

Melee Weapons (page 112): Add the following sentence to the first paragraph "When using a melee weapon, users add their Brawn characteristic to the damage dealt, unless the weapon description indicates otherwise."

CHAPTER VI: CONFLICT AND COMBAT

Aim (page 130): If the character spends two maneuvers aiming, he gains  , not  .

Step 4: Resolve Advantage and Triumph (page 132): In the second paragraph, add the following to this sentence: "Remember, a critical hit can only be triggered on a successful hit that deals damage."

CHAPTER VII: STARSHIPS AND VEHICLES

Table 7-15: Starship and Vehicle Attachments: Column three, row 10 (the upgraded weapons entry) should read "Varies, see the attachment entry."

Range (page 149): Replace the sentence "Unlike in personal combat, the differences in distance between range bands at starship scale are so great that starships cannot attack targets beyond their range band" with "As with all weapons, starship scale weapons cannot attack targets beyond their range band."
