

CUSTOM GAME MODES

Creating a custom game mode is a feature in the desktop version of the *X-Wing* Squad Builder that allows a user to create their own unique way to play *X-Wing* by defining the available ships and upgrades. This Custom Format can then be saved to your profile and shared with friends via a link. Other players can click that link, review the Custom Format, and save it to their own profile. Our hope is that this will allow event organizers and friends to share fun and thematic Custom Formats with their friends, diversifying the ways that players can enjoy *X-Wing*! Below is an overview of how to create your own Custom Format and share it with others.

Navigating to the Menu

To create a new Custom Format, first click "New Squad."

Custom Format Menu

Then, click "Custom" at the far right of the subsequent page.

NEW SQUAD

Choose Game Mode

Extended Second Edition Variants Custom

Create new and unique ways to play X-Wing Second Edition with your friends! The Custom game mode allows the creation of your own variants. You can adjust the pool of factions, ships, pilots, and upgrades. You can also include special instructions for setup and objectives.

Your Custom Formats

The Custom Formats page will be displayed. Select "My Custom Formats."

Choose options My Custom Formats +

How to Edit Your Custom Custom Formats

Note that you cannot edit your Custom Format on this page; to edit your Custom Format, click the “Duplicate” button, make the changes you desire, and then save the Custom Format with a new name, different from the previous one (such as “Trench Run v2”). This is done to ensure Custom Formats under the same name that are shared with others remain consistent.
