All changes and additions made to this document since the previous version are marked in red.
ERRATA

UPGRADE CARDS

**AVENGER**
This upgrade card’s effect should read:
“While attacking, you may exhaust this card. If you do, the defender cannot spend exhausted defense tokens during this attack.”

**BOMBER COMMAND CENTER**
This upgrade card’s effect should be followed by this paragraph:
“A squadron cannot resolve more than 1 “Bomber Command Center” card per attack.”

**DEMOLISHER**
This upgrade card’s effect should read:
“During your activation, you can perform 1 of your attacks after you execute your first maneuver.”

**GALLANT HAVEN**
This upgrade card’s effect should read:
“Before a friendly squadron at distance 1 suffers damage from an attack, reduce the total damage by 1, to a minimum of 1.”

**JAMMING FIELD**
This upgrade card’s effect should read:
“While a squadron at distance 1–2 is attacking a squadron or defending against a squadron, the attack must be treated as obstructed.”

**RAPID LAUNCH BAYS**
This card’s effect should read:
“Before deploying fleets, you may set aside a number of friendly squadrons up to your squadron value next to your ship card.

O: For each squadron you would activate with this command, you may place 1 of your set-aside squadrons within distance 1. It cannot move this activation.”

**TURBOLASER ROUTE CIRCUITS**
This card’s effect should read:
“While attacking, you may exhaust this card and spend 1 defense token to change 1 red die to a face with a $ icon or 2 $ icons.”

**YAVARIS**
This upgrade card’s effect should read:
“$: Each squadron you activate can attack twice if it does not move during your activation.”

All changes and additions made to this document since the previous version are marked in red.
**Squadron Cards**

**Colonel Jendon**
This squadron’s Relay 2 keyword should read:

“When a friendly ship resolves a ⚗ command, if you are in range to be activated, up to 2 of the squadrons it activates can be at distance 1–3 of you.”

**Lambda-class Shuttle**
This squadron’s Relay 2 keyword should read:

“When a friendly ship resolves a ⚗ command, if you are in range to be activated, up to 2 of the squadrons it activates can be at distance 1–3 of you.”

**Major Rhymer**
This squadron’s effect should read:

“Friendly squadrons at distance 1 can attack enemy ships at close range using all dice in their battery armament.”

**VCX-100 Freighter**
This squadron’s Relay 1 keyword should read:

“When a friendly ship resolves a ⚖ command, if you are in range to be activated, up to 1 of the squadrons it activates can be at distance 1–3 of you.”

**Station Cards**

**Armed Station**
This card’s anti-squadron armament should be 1 blue die. This card’s battery armament should be 2 red dice and 2 blue dice.

**Objective Cards**

**Most Wanted**
The Special Rule for the “Most Wanted” objective card should read:

“When a ship is attacking an objective ship, it may add 1 die of any color that is already in its attack pool to its attack pool.”

**Jamming Barrier**
The Special Rule for the “Jamming Barrier” objective card should read:

“While attacking, if neither the attacker or defender are overlapping an objective token and line of sight is traced across an objective token or the line between the two objective tokens, the attacker must choose and remove half of the dice from the attack pool, rounded down, before rolling.”

**Campaign Objective Cards**

**Hyperlane Raid**
The End of Game section of this campaign objective card should be followed by this sentence:

“If scores are equal, the first player wins.”
Nebula Outskirts
The last sentence of the Special Rule section of this campaign objective card should read:
“The total number of command dials that must be assigned to each of the second player’s ships during each Command Phase is decreased by 1 to a minimum of 1.”

All-Out Offensive Special Rules, p.16
This section should include the following paragraph before the Allied Fleets section:
“Assign Targets: After Setup, each player whose commander does not have a “friendly” effect must choose one opponent. The “enemy” effect of that player’s commander only resolves against ships or squadrons controlled by the chosen opponent.”

Corellian Sector Locations, p.17
The Victory Bonus value for Corfai should be +2:
The Victory Bonus value for Talfaglio should be +0:

FLOTILLAS
The rules for flotillas should read:
“The ship included in this expansion is a flotilla. Ships of this type feature two plastic ship models (instead of one). Flotillas follow the same rules as other ships with the following exceptions:
When a flotilla would overlap another ship (or be overlapped by another ship), deal one facedown damage card to the flotilla. Do not deal a facedown damage card to the closest ship the flotilla overlapped (or that overlapped it) unless that ship is also a flotilla.
• A flotilla cannot equip a T (commander) upgrade card.”

LEARN TO PLAY
Fleet-Building Restrictions, p.22
This section should include the following bullet point:
“A ship cannot equip more than one copy of the same upgrade card.”

RULES REFERENCE
Attack, p.2
The second sentence of step 6, “Declare Additional Squadron Target,” should read:
“The new defender must be inside the firing arc and at attack range of the same attacking hull zone, and the attacker must measure line of sight to it as normal.”

Attack, p.2
Step 6, “Declare Additional Squadron Target,” should include the following bullet point:
“Treat each repetition of steps 2 through 6 as a new attack for the purposes of resolving card effects.”

Commandos, p.4
This entry should include the following bullet point:
“A ship can resolve a command and choose not to produce its effect. It still counts as resolving that command, such as for the purpose of triggering upgrade cards.”
**Fleet Building, p.6**

This entry should include the following bullet point:

“A ship cannot equip more than one copy of the same upgrade card.”

**Line of Sight, p.7**

The fourth bullet point of this entry should read:

“If line of sight or attack range is traced through a hull zone on the defender that is not the defending zone, the attacker does not have line of sight and must choose another target.”

**Measuring Firing Arc and Range, p.7**

This entry should include the following paragraph:

“When measuring attack range for a ship, ignore any portion of the defender that is outside the attacking hull zone’s firing arc, even if that portion is at a closer range.”

**Measuring Firing Arc and Range, p.7**

This entry should include the following paragraph:

“If attack range is measured through a hull zone on the defender that is not the defending hull zone, the attacker does not have line of sight and must choose another target.”

**Overlapping, p.8**

The last sentence of the first paragraph should read:

“They can place those squadrons in any order, but they cannot place them outside the play area.”

**Size Class, p.11**

The size of a small ship should read “43mm x 71mm.” The size of a medium ship should read “63mm x 102mm.” The size of a large ship should read “77.5mm x 129mm.”

---

**RULE CLARIFICATIONS**

**OPEN, DERIVED, AND HIDDEN INFORMATION**

**OPEN INFORMATION**

Open information is any information about the game, game state, or ships that is available to all players. This includes faceup damage cards, any relevant tokens, the chosen objective, discarded upgrade cards, and any other information continuously available to all players.

All players are entitled access to open information and cannot hide open information from an opponent or omit specific details. A player must allow their opponent to discover the information themselves if they attempt to do so.

**DERIVED INFORMATION**

Derived information is any information about the game, game state, or ships all players have had the opportunity to learn through card/game effects or through the process of deduction using open information. This includes each player’s current score, how many of a particular damage card might remain in a damage deck, which ship a dial belongs to, etc.

Derived information may be marked with the use of a token or other indicator so that players remember the information. A player cannot misrepresent derived information or hide the open information necessary to discover derived information.

If derived information is dependent on a player’s previous decision or action, they must answer truthfully when asked about that decision or action. For example, Steph chooses two ships for the objective Most Wanted. During a round later in the game, Bryan forgets which ships were chosen and asks Steph. Steph must answer honestly which two ships she chose for the objective.

**HIDDEN INFORMATION**

Hidden information is any information about the game, game state, or ships unavailable to one or more players. This includes facedown damage cards (even if they were previously faceup), facedown maneuver dials, cards within the damage deck, etc.

A player cannot learn hidden information without the aid of a game effect, rule, or another player verbally communicating the information. However, if a player that has access to hidden information about the game or a card and chooses to verbally share it with his or her opponent, that player is not required to tell the truth.

---

**Range Example**

The CR90 Corvette’s front hull zone attempts to attack the Victory’s rear hull zone. The Rebel player must measure range to the closest point of the Victory’s rear hull zone that is within the attacking firing arc. This measurement passes through the Victory’s left hull zone, so the CR-90’s front hull zone does not have line of sight on the Victory’s rear hull zone.
FAQ

ACTIVATIONS
Q: When it is a player’s turn to activate a ship, what happens if all of that player’s unactivated ships are prevented from activating by card effects (such as Admiral Raddus or Governor Pryce)?
A: That player passes their turn to activate.

ATTACKS
Q: When a ship resolves an ability that allows it to add dice to the attack pool, can it add those dice if their color is not normally appropriate for the range of the attack?
A: Yes. The range restriction on dice color applies only when dice are gathered during the “Roll Attack Dice” step of an attack.

Q: If a ship’s attack would not include any dice, but the ship can add dice through a card effect, can it perform the attack?
A: No. If a ship does not gather any dice during the “Roll Attack Dice” step of an attack, the attack is canceled.

Q: When measuring line of sight, do the attacker’s hull zones block line of sight?
A: No.

Q: While measuring line of sight, if a ship is in the way, do its shield dials and their plastic frames affect line of sight in any way?
A: No. However, when determining line of sight, all of the other parts of a ship’s plastic base can obstruct line of sight.

Q: Can a ship attack an engaged squadron?
A: Yes.

COMMANDS
Q: When a ship spends a command dial and token of the same type, does that count as one resolution of that command?
A: Yes.

Q: If a ship wants to spend a command dial and token of the same type, does it have to spend them simultaneously?
A: Yes. It must already have both the dial and token, and must spend them together.

Q: Can a ship spend its command dial to gain a command token of the same type at any point during its activation?
A: No. It can only do this when it reveals its command dial.

Q: If a ship spends its command dial to gain a command token of the same type, can it spend that token later in that round?
A: Yes.

Q: If a ship has a ⚪ dial and a ⚪ token, can it spend those tokens against different targets during the same round?
A: No. A ship cannot resolve each command more than once each round.

Q: If a ship spends a ⚪ dial and a ⚪ token together, can it reroll the die that it adds? Is it required to reroll a die?
A: It can reroll the die that it adds, and it can choose not to reroll any dice.

Q: Can a ship resolve the effect of a command by spending multiple matching command dials or command tokens?
A: No. A ship may only resolve a command by spending one command dial, one command token, or one command dial and one matching command token.

Q: Do abilities or card effects that resolve when a ship reveals its command dial resolve when a command dial placed on an upgrade card equipped to that ship is revealed?
A: No. Effects that resolve when a ship reveals its command dial only resolve when a ship reveals a command dial from the stack assigned to its ship card as part of its activation.

DAMAGE CARDS
Q: Can players look at facedown damage cards assigned to ships?
A: No.

FLOTILLAS
Q: What ship size are flotillas for the purposes of resolving card effects?
A: A flotilla ship is of the ship size defined by its ship token and base. For example, a flotilla ship on a small base is a small ship for all rules and effects interactions. Flotillas are only treated differently when they are overlapped or overlapping other ships.

MOVEMENT
Q: When a ship executes a maneuver, does it move along the maneuver tool?
A: No. The ship is picked up from its starting position and placed in its final position. It ignores any obstacles, ships, and squadrons that its base does not overlap in its final position.

Q: When a ship executes a maneuver, is it destroyed if part of the maneuver tool is outside the play area but the ship itself is entirely inside the play area?
A: No.
Q: When a ship overlaps more than one ship, how does a player determine which of those ships is closest?
A: The player measures range to the overlapped ship that appears to be closer and temporarily marks that measurement (such as by holding their thumbnail where the ruler reaches the overlapped ship). Retaining that measurement, they measure range to the other overlapped ship. If the second range measurement is beyond the marked measurement, the first ship is closer; otherwise, the second ship is closer.

Q: When can a player premeasure with the maneuver tool?
A: A player can only premeasure with the maneuver tool during his ship’s “Determine Course” step and only for that ship.

Q: If a ship executes its maneuver so that it is exactly touching another ship or squadron at its final position, did the ship that moved overlap the ships or squadrons that it is touching?
A: No.

Q: If a ship overlaps another ship and suffers damage so that it has damage cards equal to its hull value but its final position is overlapping the station obstacle, is that ship destroyed?
A: Yes. The station’s effect is not resolved until after the ship executes its maneuver.

Q: When a ship executes a maneuver such that a portion of the ship would be outside the play area at its final plotted position, but the ship overlaps another ship at that position and finishes its move entirely inside the play area, is the ship that is moving destroyed?
A: No.

Q: When an effect instructs a ship to execute a maneuver outside of its usual Execute Maneuver step, what is that ship’s speed?
A: While executing that additional maneuver, the ship’s speed is temporarily set to the speed indicated by the effect that is resolved. The ship executes the maneuver by completing the Determine Course and Move Ship steps. The ship’s current speed is still tracked by its speed dial, and the ship does not count as having changed its speed.

Q: If a ship or squadron was set aside and is deployed at the start of a game round by an ability or upgrade card effect, can it resolve abilities and upgrade card effects at the start of that round?
A: Yes, as long as those abilities could be resolved at the start of the round in which that ship or squadron was deployed.

Q: Can set-aside ships be assigned tokens or chosen as an objective ship by abilities or card effects?
A: No. However, if they are assigned tokens or chosen as an objective ship before being set aside (by Blockade Run or Intel Sweep, for example) those tokens or effects are not removed when the ship is set aside.

Q: Can a ship or squadron that is set aside be deployed by a different card effect than the one that set it aside (Rapid Launch Bays and Fighter Ambush, for example)?
A: No. Ships and squadrons that are set aside are only affected by the ability or card effect that set them aside.

SETUP AND FLEET-BUILDING

Q: During fleet-building, how many fleet points can a player spend on squadrons?
A: A player can spend up to one third of the fleet point total, rounded up. For example, if playing a 200-point game, a fleet could contain 67 points of squadrons, even if the total cost of that fleet was only 190.

Q: During the “Place Obstacles” step of setup, can the players place any combination of six obstacles?
A: No. The players place three asteroid fields, two debris fields, and one station.

Q: During the “Deploy Ships” step of setup, can a player set his or her ship’s speed to “0”?
A: No.

Q: Can a ship be placed so that it overlaps another ship?
A: No.

Q: Can a ship spend a defense token even if it would have no effect?
A: Yes. For example, a ship can spend a B token and choose an adjacent hull zone with no shields remaining.

Q: Can a ship spend an evade token to reroll a die and wait to see the result before spending another defense token?
A: Yes.

Q: During Setup, can ships and squadrons resolve card effects before they have been deployed?
A: Yes. During Setup, ships and squadrons that have not yet been deployed are in play, and their ship, squadron, and upgrade cards are active, unless that ship or squadron has been destroyed or set aside.

OBSTRUCTED

Q: While a ship is overlapping an obstacle and the attacking hull zone’s traced line of sight does not pass over a visible portion of that obstacle, or another obstacle or ship, is that attack obstructed?
A: No.

SET-ASIDE SHIPS AND SQUADRONS

Q: Is a player defeated if they do not have any ships in play, but do have ships that are set aside due to a card effect?
A: Yes. All of that player’s set-aside ships and squadrons are destroyed. In official tournaments, this occurs at the end of the game round.
**SQUADRONS**

**Q:** When a squadron activates, is it required to move and/or attack?

**A:** No. A squadron can activate and end its activation without moving and/or attacking.

**Q:** During setup, can a squadron be placed outside the setup area as long as it is within distance 1–2 of a friendly ship?

**A:** No. It may be placed outside of the deployment zone, but not outside the setup area.

**Q:** When a squadron with counter performs its counter attack, can it resolve abilities that affect an attack?

**A:** Yes. A counter attack functions just like a normal attack except that the dice gathered for the attack are indicated by the squadron’s counter value instead of its anti-squadron armament. They can be affected by the swarm keyword, Howlrunner’s ability, etc.

**Q:** How does the squadron keyword bomber work?

**A:** When a squadron with bomber attacks a ship, it can resolve the standard critical effect before totaling damage if it has at least one $ result. To determine the total damage of an attack against a ship, it sums the number of $ and $ results instead of only the $ results.

**Q:** If a ship overlaps a large number of squadrons, can the opposing player place the squadrons in a way that makes it impossible for all of them to touch the ship?

**A:** No. The player must place as many as possible touching the ship. They cannot space them out in order to prevent some squadrons from touching the ship.

**Q:** If a ship overlaps a large number of squadrons and it is impossible to place all of them touching the ship, where should the remaining squadrons be placed?

**A:** A squadron that cannot be placed touching the ship must be placed touching another squadron that is touching the ship.

**Q:** When a ship executes a maneuver, if its shield dial or the plastic portion framing that dial is overlapping a squadron’s base, does that count as overlapping?

**A:** Yes. Similarly, a squadron cannot move under or be placed under a ship’s shield dial, as this would count as overlapping.

**Q:** Can a squadron with rogue move and attack in either order when it activates during the Squadron Phase?

**A:** Yes.

**Q:** Is a squadron with grit prevented from moving while engaged with two squadrons, one with heavy and one without heavy?

**A:** Yes.

**Q:** If a squadron is at distance 1 of two enemy squadrons, one that it is engaged with and one that it is not engaged with because it is separated by an obstacle, does the original squadron have to attack the engaged squadron?

**A:** No. A squadron can attack another squadron at distance 1 regardless of whether it is technically engaged with that squadron.

**Q:** Can a squadron with strategic move objective tokens that are assigned to a ship?

**A:** No.

**Q:** If a squadron with snipe is engaged and another squadron is at distance 2, can it attack the squadron at distance 2?

**A:** Yes. However, if the squadron with snipe is engaged with a squadron with escort, it cannot attack another squadron that lacks escort.

**Q:** Does a squadron with relay need to be close–medium range of the ship that is activating squadrons so that those squadrons can activate?

**A:** No.

**Q:** Can a card effect or a squadron with strategic move objective tokens to or from a position where they are overlapped by a ship?

**A:** Yes. If necessary, that ship’s owner may mark that ship’s position and lift it out of the way, then return it after the token is moved.

**Q:** Do effects that change a squadron’s speed value also apply when the squadron moves because of a card effect?

**A:** No. A squadron’s speed only applies when it performs its standard move during its activation.

---

**CORELLIAN CONFLICT FAQ**

**BUILD FLEETS**

**Q:** After constructing their starting 400-point fleet, do players keep any leftover points as resources?

**A:** No.
PLACE BASES
Q: When it is a Rebel player’s turn to place Rebel Presence stickers, is he required to record the location of a base and outpost as a pair?
A: No. However, the Rebel team must plan so that half of the Rebel Presence stickers represent outposts and half bases after all stickers have been placed.

DETERMINE INITIATIVE
Q: Can the player who declared the assault choose to be first or second player?
A: No. The player who declared the assault has initiative and is the first player.

SCORING BATTLES
Q: What happens to a player’s squadrons if all of their ships are destroyed or all of his ships retreat to hyperspace?
A: The game immediately ends when a player has no ships remaining in the play area. The player with ships remaining in the play area wins that battle. Any of the losing player’s squadrons remaining in the play area are treated as not destroyed and do not become scarred.

TRACKING FLEET CONDITION
Q: If a ship is destroyed during a battle by moving outside the play area, does it become scarred?
A: Yes.
Q: Can a scarred ship recover its discarded defense token or a scarred squadron recover its hull point during a battle by resolving an effect?
A: Yes. However, the scar ID token can only be removed during the Refit and Expand Fleets step. If that ship or squadron remains scarred at the start of the next battle, the appropriate effect must be resolved.
Q: Can a ship or squadron permanently lose its veteran token other than by being eliminated from the campaign?
A: No.

REFIT AND EXPAND FLEETS
Q: When do changes to fleet rosters become public knowledge?
A: Players are not required to discuss their decisions during the Refit and Expand Fleets step. At the beginning of the Strategy Phase, fleet rosters are public knowledge and players can ask to look at the other teams’ rosters before declaring assaults and defenders.
Q: Can a player voluntarily remove ships or squadrons from his fleet to reduce his fleet-point value?
A: Yes. However, ships or squadrons removed in this manner are treated as destroyed. The player does not recover resource points from their fleet-point value. Cards with unique names (such as title upgrade cards) that have been eliminated in this way cannot be purchased again by any player during the campaign.
Q: Do upgrades that are not equipped and are set aside count as part of that fleet’s total value?
A: All purchased upgrades count toward the fleet’s total value, whether they are equipped or unequipped.
Q: What is the limit on adding squadrons to a fleet?
A: A fleet’s squadron fleet-point value cannot exceed one-third of that fleet’s total value (rounded up). A player can add additional squadrons as long as the final squadron total does not exceed one third of the fleet’s total final value.

GRAV WELL INTERDICTION
Q: If a ship with a © (experimental retrofit) upgrade equipped moves so that it is at distance 1–5 of an enemy ship that has already discarded its dial to retreat to hyperspace, does that enemy ship still retreat?
A: Yes.

STRATEGIC EFFECTS
Q: Can the second player use a Skilled Spacers token to replace a campaign objective card with another campaign objective card or a standard objective card?
A: No.
**CARD CLARIFICATIONS**

**DAMAGE CARDS**

**Damaged Controls**

This card’s effect resolves during the Move Ship step while executing a maneuver.

**Power Failure**

If a ship has two Power Failure damage cards, it fully applies one, then applies the other. For example, a ship with an Engineering value of “5” would be reduced to “2” and then reduced again to “1.”

**Thrust-Control Malfunction**

An adjustable joint is a joint with a yaw value of “I” or “II”; a joint with a yaw value of “-” is not affected. This card affects the yaw value printed on the speed chart; that value can still be increased by the ♦ command or other card effects.

This card only affects maneuvers executed at the ship’s current speed (the number on its speed dial).

**OBJECTIVE CARDS**

**Advanced Gunnery**

If either player’s objective ship is equipped with Gunnery Team and attacks from the same hull zone during its activation, that ship cannot target the same ship or squadron more than once during its activation.

If either player’s objective ship is equipped with Slaved Turrets, that ship cannot attack more than once per round.

**Contested Outpost**

The station does not obstruct attacks or line of sight for ships or squadrons.

**Targeting Beacons**

This card’s Special Rule cannot resolve more than once during each attack, even if there is more than one objective token at distance 1–2 of the defender.

**Opening Salvo**

The dice added by this card effect are added to the attack pool after the attack pool is rolled. The second player’s added dice can be of any color regardless of the range of the attack.

A ship’s fleet point cost includes the costs of all upgrade cards equipped to that ship.

**Blockade Run**

The second player assigns 1 objective token to each of their ships after the objective is chosen, before any ships can be set aside by card effects.
**Fire Lanes**

If only a portion of a hull zone's armament is at attack range of an objective token, only that portion is added to the sum. A hull zone can add only its current battery armament to the sum, including increases and decreases due to cards like “Enhanced Armament.” Do not include dice granted after an attack would be rolled, such as from the Concentrate Fire command or the “Dominator” title.

**Fleet Ambush**

The first player can deploy squadrons within distance 1–2 of a ship inside the ambush zone.

After a player has placed all of their ships they begin placing squadrons on their next deployment turn. The other player continues placing ships until all of their ships have been placed, then they begin placing squadrons.

**Hyperspace Assault**

Ships and squadrons set aside are not in play. Their abilities and upgrades are inactive and they cannot be affected by any abilities.

When a squadron that was set aside is deployed, set its activation slider to display the same color as the initiative token.

During setup, if the second player must deploy a squadron but cannot because they have no ships in the play area, their squadrons that are not set aside are destroyed.

The second player cannot move objective tokens at the start of the first round.

If a player has no ships in play, their ships and squadrons that are set aside are destroyed. If the game goes to time, or the end of the sixth round, their ships and squadrons that are set aside are destroyed.

**Planetary Ion Cannon**

This card’s Special Rule effect can only be used to attack 1 enemy ship per round.

While attacking with this card’s Special Rule effect, if the defending hull zone has no shields, the attacker can choose to resolve the standard critical effect instead of the card’s critical effect.

**Dangerous Territory**

A squadron with **strategic** can move objective tokens off of or onto obstacles. An objective token can only be removed to gain 1 victory token if it is overlapping an obstacle. If multiple objective tokens are overlapping an obstacle, only 1 can be removed when a ship overlaps that obstacle.

This card’s Special Rule effect resolves during the Move Ship step while executing a maneuver.

**Minefields**

This card’s Special Rule effect resolves during the Move Ship step while executing a maneuver.

**Campaign Objective Cards**

The second player can only resolve this card’s Special Rule effect if the Armed Station could perform an attack against a ship or squadron that rolls at least 1 die.
**BASE DEFENSE: ION CANNON**

This card’s Special Rule effect can only be used to attack 1 enemy ship per round.

While attacking with this card’s Special Rule effect, if the defending hull zone has no shields, the attacker can choose to resolve the standard critical effect instead of the card’s critical effect.

---

**HYPERLANE RAID**

The first player gains 1 victory token for each enemy ship that retreats to hyperspace.

The second player does not gain 1 victory token for each ship within 2 range ruler lengths of the first player’s edge that retreats to hyperspace at the end of the game.

---

**DUTCH VANDER**

If Dutch Vander is attacking and the defender does not suffer damage but another enemy squadron does (due to resolving an effect such as Biggs Darklighter), Dutch Vander’s effect does not toggle the defender’s activation slider.

---

**SHOW OF FORCE**

If the second player retreats all of his remaining ships to hyperspace, treat any remaining station as destroyed when determining score at the end of game.

---

**JAN ORS**

Unless Jan Ors herself is defending, her defense tokens cannot be targeted by an icon’s effect.

---

**SQUADRON CARDS**

**BIGGS DARKLIGHTER**

While resolving Biggs Darklighter’s ability, you cannot choose a friendly squadron that has been destroyed but is still in the play area because of General Rieekan’s card effect.

---

**LUKE SKYWALKER**

Ignore Luke Skywalker’s ability while resolving the “Projector Misaligned” and “Shield Failure” damage card effects.

Luke Skywalker does not resolve the critical effect granted by Norra Wexley’s ability while attacking a ship with shields.
**Major Rhymer**

Friendly squadrons that are at distance 1 of Major Rhymer can attack ships at close range instead of being restricted to distance 1. This includes Major Rhymer himself.

When a friendly squadron attacks in this way, it ignores the dice color restrictions on the range side of the ruler, rolling all dice in its battery armament (the rightmost armament on the squadron card).

**Valen Rudor**

An enemy squadron engaged with another squadron cannot perform a counter attack against Valen Rudor.

**STATION CARDS**

**Armed Station**

The armed station may attack and draw line of sight to ships and squadrons overlapping it.

While the armed station is attacking, if the defender is a ship overlapping the armed station, the armed station may attack and draw line of sight to any of the defender’s hull zones.

The armed station cannot obstruct its own attacks.

**UPGRADE CARDS**

**Admiral Ackbar**

If a ship is equipped with Gunnery Team, Admiral Ackbar’s ability may apply to both attacks performed from the same hull zone.

**Admiral Ozzel**

A friendly ship equipped with Nav Team that resolves a command using a token to increase a yaw value may resolve Admiral Ozzel’s effect to change its speed by 1.

**Admiral Chiraneau**

If a ship has Corruptor and Admiral Chiraneau equipped, engaged squadrons with Bomber that it activates have a speed of “3.”

**Admiral Konstantine**

If Admiral Konstantine’s effect changes the speed of a ship with a faceup Thruster Fissure damage card, that ship does not suffer 1 damage from Thruster Fissure’s effect.

During an All-Out Offensive, this card’s effect can resolve against enemy ships belonging to any opponent.

**Admiral Montferrat**

A ship with a faceup Disengaged Fire Control damage card cannot target a ship equipped with Admiral Montferrat that is at speed 3 or higher.
**Admiral Raddus**

If the ship with this upgrade equipped is destroyed after resolving this card's effect to deploy a ship, the ship that was deployed by this card's effect still cannot be the first ship to activate that round.

During the Ship Phase of the round in which a ship is deployed by this card's effect, if all of both players' ships are prevented from activating by card effects (such as Admiral Raddus or Governor Pryce), a ship deployed by this card's effect may activate, even if it is the first ship to activate that round.

**Admiral Screed**

This card's effect can resolve during any ship or squadron's activation.

**Admiral Sloane**

A token spent by this card's effect cannot be spent by the defender during that attack. The defender can spend another token of the same type during that attack.

**Admonition**

A ship equipped with Admonition can discard a single defense token while defending.

**All Fighters, Follow Me!**

If the ship with this upgrade equipped is destroyed after resolving this effect, squadrons activated by friendly ships are still affected until the end of the round.

This effect increases the speed of squadrons by an additional 1 that are activated by a ship with Independence equipped.

**Assault Concussion Missiles**

The damage caused by this card cannot be reduced by the ⚫️ defense token.

**Aspiration**

Shields can be moved to hull zones on the ship that this card is equipped to (including through the card effect of Projection Experts), as long as the number of shields in the hull zone they are moved to does not exceed that hull zone's maximum shield value.

**Bail Organa**

You cannot resolve this card's effect to assign a round token to this card if the ship this card is equipped to is set aside.

**Boarding Engineers**

To resolve this card's effect, choose the facedown damage cards to be flipped, then flip those cards faceup (one at a time).

A facedown damage card cannot be chosen more than once while resolving this effect.

**Boarding Troopers**

To resolve this card's effect, choose the defense tokens to be spent, then spend those tokens (one at a time).

A defense token cannot be chosen more than once while resolving this effect.
**CHIMAERA**

If *Chimaera*’s equipped ◆ upgrade card is discarded (to resolve its own effect, for example) it cannot then be discarded to resolve *Chimaera*’s effect to replace it.

To resolve this card’s effect, choose and equip any other ◆ upgrade card that does not share the same unique name as another card in your fleet, regardless of its point cost.

Upgrade cards replaced by this card’s effect are no longer equipped to this ship or part of your fleet. They can be chosen by this card’s effect to replace your current equipped ◆ upgrade card.

When determining the fleet point cost of the ship with this card equipped at the end of the game, the ◆ upgrade card currently equipped is the only one counted (even if that card is discarded because of its own effect).

In the *Corellian Conflict*, after Scoring Battles but before Tracking Fleet Condition, replace the ◆ upgrade card currently equipped to *Chimaera* with the ◆ upgrade card listed on the player’s fleet roster.

**COMMS NET**

This effect can only be resolved after the Reveal Command Dial step of the ship with this card equipped.

**DEMOLISHER**

If *Demolisher* is equipped with Engine Techs, it cannot perform one of its attacks after it executes the maneuver granted by Engine Techs.

*Demolisher* only affects one of the ship’s attacks. It must perform its other attack during the Attack step of its activation or that attack is forfeited.

In the Minefields objective, if *Demolisher* is within range of a mine token after it executes a maneuver, it suffers the effect of that mine before it can perform its delayed attack. The attack is affected by any faceup damage cards dealt, and *Demolisher* cannot attack if it is destroyed.

**DEVASTATOR**

If this ship replaces one of its defense tokens (for example, using Captain Needa’s ability), its replaced defense token does not count as discarded.

If this ship recovers a discarded defense token, that token no longer counts as discarded.

This ship cannot spend a defense token as part of the cost of resolving an upgrade card’s effect unless that effect specifies that a defense token may be spent.

**DOMINATOR**

If this ship spends two shields, it may take both from the same hull zone or one each from two different hull zones.

**DUAL TURBOLASER TURRETS**

While you are resolving this card’s effect, you cannot resolve other effects that modify dice until you have completely resolved this card’s effect.

**ELECTRONIC COUNTERMEASURES**

This card’s effect does not allow you to do any of the following:

- Spend a defense token while at speed “0”.
- Spend a defense token of a type the defender has already spent during an attack.
- Spend a defense token more than once during an attack.

**ENGINE TECHS**

When the ship executes this maneuver, it can click the first joint of the maneuver tool using its usual yaw value for the first joint at speed 1.
**Entrapment Formation**
If the ship with this upgrade equipped is destroyed after resolving this effect, friendly ships are still affected until the end of the round.

**Fire Control Team**
If a ship with this card equipped resolves both the XX-9 Turbolasers critical effect and the standard critical effect, only the first 2 damage cards are dealt faceup.

If a ship with this card equipped resolves both the Assault Proton Torpedoes critical effect and the standard critical effect, only the damage card dealt by resolving Assault Proton Torpedoes is dealt faceup.

**Flechette Torpedoes**
If a ship with this card equipped performs a counter attack during the defending squadron’s activation, toggling the activation slider of the defending squadron does not end that squadron’s activation.

**Flight Controllers**
This effect also increases a squadron’s armament while it is attacking with snipe.

If a ship with this card equipped activates Colonel Jendon, and Colonel Jendon uses his ability to cause another friendly squadron to perform an attack, that squadron’s armament is not increased by this card’s effect.

**G7-X Grav Well Projector**
Ships deployed at distance 1–3 of a grav well token cannot resolve the effect of this card if that token’s owner does not have at least 1 ship with this card equipped in play.

Grav well tokens remain in play until the end of the game.

**G-8 Experimental Projector**
When this effect is resolved on an enemy ship and that ship changes its speed dial during the Determine Course step, the ship’s speed is temporarily reduced by 1 from the current speed on its dial.

This effect can be resolved on an enemy ship that is executing a maneuver from an effect such as Engine Techs. This effect is resolved before the Determine Course step of that maneuver and reduces the ship’s temporary speed by 1 to a minimum of 0.

**Garm Bel Iblis**
A ship cannot have more than one copy of the same command token.

**General Dodonna**
During an All-Out Offensive, this card’s effect can only resolve when a ship belonging to the opponent you chose in the Assign Targets step is dealt a faceup damage card.

**General Madine**
When a friendly ship resolves the command and spends a dial, it can use this effect to increase a yaw value by an additional 1.

When a friendly ship equipped with Nav Team resolves the command and spends a token, Nav Team’s effect is not cumulative with General Madine’s effect.
**General Rieekan**

Ships and squadrons affected by this ability are destroyed at the end of the Status Phase regardless of the number of damage cards or hull points they have at that time. These ships or squadrons are removed before resolving any “end of round” or “end of game” effects.

Ships and squadrons affected by this ability are treated as undestroyed until the end of the Status Phase for all purposes (attacking, defending, resolving card abilities, etc). These ships and squadrons can suffer additional damage from resolving effects such as Ruthless Strategists.

If a ship or squadron would be destroyed by leaving the play area, it is destroyed immediately (regardless of Rieekan’s ability).

If the ship that General Rieekan is equipped to leaves the play area, a ship or squadron already affected by this ability remains in the play area until the end of the Status Phase.

Rieekan’s ability affects the ship he is equipped to. If this ability prevents the last ship in Rieekan’s fleet from being destroyed, the game ends at the end of the game round.

The ship with this card equipped can choose whether to resolve this card’s effect before the destroyed ship or squadron is removed from the play area.

**Governor Pryce**

You cannot resolve this card’s effect to assign a round token to this card if the ship this card is equipped to is set aside.

During the Ship Phase of the round matching the round token on this card, if this ship is your only unactivated ship, all enemy ships must activate before this ship activates, even if a card effect would otherwise prevent them from activating (such as Admiral Raddus).

During the Ship Phase of the round matching the round token on this card, if both players’ fleets include a ship with this card equipped and the same round token is placed on both copies of this card, the first player’s ship with this card equipped activates before the second player’s ship with this card equipped.

**Grav Shift Reroute**

Obstacles moved with this effect are restricted from overlapping tokens, obstacles, and ships only at their final position.

If an obstacle overlaps one or more squadrons, move any overlapped squadrons out of the way and place the obstacle. Then the player who is not moving the obstacle places the overlapped squadrons, regardless of who owns them, in any position touching or overlapping that obstacle.

An obstacle moved with this effect can be rotated as long as no part of that obstacle is beyond distance 2 of the object’s original position.

If an obstacle with an objective token placed on it during the setup of Dangerous Territory is moved with this effect, that objective token remains on that obstacle.

After deploying fleets, if the ship with this card equipped is not in play (because it has been set aside), that ship’s owner cannot resolve the remainder of this card’s effects.

**Hondo Ohnaka**

When resolving this card’s effect, both players must assign 2 command tokens to 2 different ships, even if they must assign tokens to enemy ships to do so.

Your opponent can assign command tokens to ships that you assigned tokens to.

**Insidious**

This ship can initiate an attack against the rear hull zone of an enemy ship at medium range even if it does not have red or blue dice in its armament.

**Instigator**

Squadrons can attack this ship if they are not engaged by an actual enemy squadron without heavy in the play area.

The intel keyword does not affect this ship’s ability.

**Grand Admiral Thrawn**

When a friendly ship gains a command dial as part of Grand Admiral Thrawn’s effect, that ship can spend that dial to gain a matching command token.
**Intel Officer**

A ship with this card equipped can choose 1 of its own defense tokens when resolving this card.

**Leia Organa (Commander)**

This card’s effect cannot be resolved when a ship resolves a command by spending a command dial and a matching command token.

**Mon Mothma**

Mon Mothma’s ability provides an alternative way to spend a defense token; an defense token spent in this way does not also produce its normal effect.

**MS-1 Ion Cannons**

Upgrade card effects that do not have an “exhaust” requirement can still be resolved while that card is exhausted.

**Ordnance Pods**

This card’s effect allows the ship it is equipped to to perform an anti-squadron attack against each eligible target in the chosen hull zone’s firing arc.

**Phylon Q7 Tractor Beams**

A ship affected by this ability must discard a blue token if it has one. Otherwise, it reduces its speed.

**Profundity**

When determining the fleet point cost of this ship and the ship deployed by this card’s effect at the end of the game, the upgrade cards currently equipped to each ship are counted as part of that ship’s fleet point cost.

In the Corellian Conflict, while Tracking Fleet Condition, if either the ship with this card equipped or the ship deployed by this card is eliminated from the player’s fleet roster, only the upgrade cards equipped to that ship at the end of the game are eliminated.

**Quad Laser Turrets**

A ship with this card equipped rolls 1 blue die when performing a counter attack. It does not use its anti-squadron armament.

When a ship with this card equipped performs a counter attack, the ship’s owner chooses which hull zone the attack is performed from.

**Rapid Launch Bays**

When a ship with this card equipped resolves a command, it can place its set-aside squadrons up to the number it would activate during that command. After the squadrons are placed, they can be activated (one at a time) as part of that command, but cannot move. Placing a set-aside squadron does not count as an activation.

Example: A ship equipped with Rapid Launch Bays has a squadron value of “4” and sets 4 B-wing squadrons aside. During a later round, the ship resolves a command from its dial and first chooses to place all 4 of the B-wing squadrons. Then, the ship activates 3 of those B-wings and 1 X-wing that is at its squadron activation range. The B-wing squadrons can attack but cannot move as part of that activation.

**Shields to Maximum!**

If the ship with this upgrade equipped is destroyed after resolving this effect, friendly ships are still affected until the end of the round.
**Slaved Turrets**

If a ship with this card equipped attacks a squadron, it can declare additional squadron targets during its attack.

**Squall**

This card’s effect resolves before your ship dial is revealed.

**Strategic Adviser**

This card’s effect can only resolve if the ship it is equipped to could activate this turn.

**Task Force Antilles**

When resolving this card’s effect, you cannot choose and exhaust more than one copy of this card.

**The Grand Inquisitor**

This card’s effect resolves when the value on an enemy ship’s speed dial is changed.

**Veteran Gunners**

While a ship equipped with this card is attacking, it can spend ⋄ icons before resolving this effect. Those dice are removed from the attack pool and are not rerolled.

**Walex Blissex**

Defense tokens recovered by this ability are readied.

**Warlord**

This ship can change a red die to the face that contains two ⌂ icons.

**Wulff Yularen**

If a ship spends a command token to resolve a command, it cannot spend the matching token gained by exhausting Wulff Yularen to resolve that command or its effect again this round.

**XI7 Turbolasers**

Even if the defender is equipped with Advanced Projectors, XI7 Turbolasers prevents the defender from suffering more than one damage in total on hull zones other than the defending hull zone.

For example, if an attack deals four damage, a defender with Advanced Projectors must suffer at least three damage on the defending hull zone; the fourth damage can be suffered on any hull zone.

This and other supported documents for *Star Wars: Armada* can be accessed from the game’s page:
